DOUBLE-SEAL JET SPRAY DEVICE

2

ABSTRACT OF THE DISCLOSURE

3

The invention concerns a water spraying device
4 comprising a filter and a perforated plate which can be
5 removed by being slid respectively through an opening or a
6 hole emerging into a well provided in the body. A pin being
7 inserted in the well to maintain two plugs of the opening
8 and of the holes when the pin is entirely inserted in the
9 well.
